
Awards

Participation in our international conference provides an opportunity to receive awards and recognition for outstanding contributions. Awards are given for the best lectures in both the experimental research and clinical research sections, and for the best poster presentation overall.

Award Categories:

- The best lecture in each section (1000 EUR)
 - The single best poster (500 EUR)
 - Speakers Award for the best lecture chosen by students (700 EUR)
- Second and third places will also be recognized and awarded with certificates.

Additionally, The Speakers Award for the Best Lecture is voted on by active participants each year. This award recognizes the most popular lecture presented at the conference.

We encourage all participants to strive for excellence and take advantage of this unique opportunity to showcase your research and gain international recognition. Join us and you could be one of the distinguished awardees this year!
